

STORRS POND RECREATION AREA

Storrs Pond Tennis 2021/ COVID-19 Guidelines

Welcome to Storrs Pond Summer Tennis! We believe, if certain precautions are taken, that outside tennis can be a low risk option for exercise and fun. Below are our guidelines for operation to help ensure the health and safety of all participants.

Masking and Social Distancing: Masks will be required for all players and coaches while on court. If a child needs a mask break, they will have to step away from the group. As per current guidelines in schools, every effort will be made to keep campers moving to avoid crowding situations. Masks may be removed for snacks and water breaks as long as 6 feet of distance is maintained. *The Town of Hanover currently requires masks to be worn within the town limits. This is subject to change.

Racquets: Campers should bring their own racquets to camp. We have a small number of racquets available that will be sanitized between uses.

Hand washing hygiene: Hand sanitizer is available and should be used as campers enter and exit the courts, before and after eating, and after using the restroom.

Restrooms: Storrs Pond restrooms are open to members. These are public spaces that your children will be using. Please instruct your children on the importance of hand washing in these areas. They will be accompanied to the restroom, but not in the restroom themselves.

Around the tennis hut: Please adhere to the 6 foot rule for social distancing around the tennis hut. Do not crowd or congregate in this area. Drinking fountains are not available and food will not be provided. Please provide full water bottles and snacks for your child. S'mores snack bar will be open daily from 12pm - 6pm weather permitting for drinks, water, snacks and ice cream.

Safety: Players, parents, and guests should NOT come to the Storrs Pond courts in the event that they are feeling ill. If a child exhibits symptoms, they will be asked to leave the court. Staff and pros are having their health monitored daily and are washing hands frequently.

Cleaning/Sanitizing: per CDC guidelines, "outdoor areas generally require normal routine cleaning, but do not require disinfection."

(<https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html>) Storrs Pond Tennis staff will wipe down plastic tables and chairs within the hut area between camp sessions and as needed if equipment or environment is known to be dirty.

Storrs Pond Tennis 2021/ COVID-19 Guidelines

What to bring to camp:

- proper shoes, clothing, towels and tennis racquet
- filled water bottles and snacks (water fountain has been disabled)
- face mask
- personal supply of hand sanitizer and tissues - these will be provided on site, but a good idea to bring in case supplies run low

My child, _____, will be attending Storrs Pond Tennis

Camp for the week (s) of _____. I have read and understand

the above recommendations.
